

## My Mum

My lovely mum, she smells of sweet bubble gum.  
She is super fun and her hair is always in a bun.  
She can make lemonade without getting paid.

$$19 \times 3 = 57$$

My golden hearted mum, she can easily make us work  
out a sum.

She always glances and gives chances  
She can teach till we reach the beats.

My caring, thoughtful mum, she can always tell when I'm  
numb.

She can always solve a case in first place.

She loves me a thousand times more than the love of a  
dove. I love her deeply and she is my dearest. That's my  
loving mum.

Safiyyah Hussain, Yr 3

Olive School, Hackney
