## Welcome and Introduction

Dear Early Years Colleagues,

We are delighted to present our professional development programme for colleagues in schools and settings across Hackney. We are committed to developing an Early Years workforce who can continue to improve outcomes for all Hackney children and narrow gaps in attainment.

The brochure contains fee paying and free courses to all Hackney Early Years settings, Childminders, Stay and Play workers and Early Years Teams in schools. The courses on offer are delivered by the Early Years Quality Improvement Team, Children's Centre teachers, Early Support team, Business Support service, Safeguarding in Education team, Educational Psychology, Speech and Language Therapy Service and by external training providers on behalf of Hackney Education.

The training will be delivered either online or face to face at the Tomlinson Centre or one of the Children's Centres. The training sessions themselves will involve active listening, group discussion and practical activities alongside the sharing of practice and personal experience.

We have ensured that our offer is as broad and inclusive as possible so that every member of staff, in any educational setting, can have a comprehensive professional development pathway.

We will continue to innovate to meet increasing demands on the Early Years sector and present solutions and ideas that ultimately aim to improve the quality of education for all. We are confident that every training need that could arise is met - thereby ensuring the continued professional development of individuals and educational teams alike.

I hope that schools, settings and practitioners will find the training offer relevant and useful and that it will continue to contribute to the improvements in Early Years provision across the sector, resulting in improved outcomes for children and families in Hackney.

Best wishes

Donna Thomas  
Head of Early Years, Early Help and Wellbeing

# Supporting the Development of Babies

## Course overview

This course includes information and resources about how early development unfolds and what you can do to support young children's healthy growth and learning. The first three years of life are a period of incredible growth in all areas of a baby's development. A new-born's brain is about 25% of its approximate adult weight, but by age 3 it has grown dramatically producing billions of cells and hundreds of trillions of connections. Between birth and age 3, babies learn to give and receive love, to roll, crawl, stand, walk and run, to talk, joke, rhyme and sing. Each child develops at their own pace and in their own way.
