

Support for Home Learning in Languages

The Chartered Institute of Linguists is a long-established, respected organisation which provides accreditation in a variety of languages. They normally hold exams in June. This year, they are sharing some free resources in a range of languages. These are related to the **Year 9-10 exam** called **Real Lives**. The exam will be rescheduled.

Recent past papers can be found here: <https://www.ciol.org.uk/real-lives>, Audio recording files listed within the table can be accessed here: https://drive.google.com/drive/folders/118_4f1jkzHmfJ5DbIA90XEK7izDdXgm4. These will provide practice in carrying out Listening exercises. Students will be able to try out these exercises, listening to the pieces as often as necessary to find the answers to the questions.

Resources, past papers and audio recordings are available in **French, Spanish, German, Russian, Arabic, Mandarin, Welsh** and **ESOL (English)**. In addition, **Polish** and **Somali** are available for the first time this year.
